

IN LARIANO (Rome)

27th December 2016

The sun is shining as the Sisters of the Lariano community await the arrival of the little car which will bring the Sisters from Rome and the General Council : because today they come together to celebrate the 40th anniversary of our Congregation. The joy of meeting is good to see but it is surpassed in the Lariano Community chapel where the praise of the Lord by 23 Sisters of Christ recalling their history and renewing their vows as when they first made them and placing their trust in the Spirit who in the future will make all things new. The feast continues in another space ; the dining room already prepared like a restaurant where, in a fraternal atmosphere, each one will taste the specialities of cooking for feast days in Italy. A variety of different languages and cultures intermingle; Italian, Malagasy, French, Castilian

to form one single bouquet of colours that signify our differences and symbolise the unity lived in each one's heart. Dances, songs, stories express our diversity and the joy of today will tighten the knot which makes us Sisters of Christ.
